We're looking for a MONITORING & EVALUATION CONSULTANT passionate about education in Africa!

Ubongo is a social enterprise that seeks to transform learning for the 440 million kids in Africa through interactive edutainment, delivered via accessible technologies. We produce [Ubongo Kids](#), an interactive edu-cartoon that teaches math and science through fun animated stories and catchy original songs.

Viewers can interact with Ubongo Kids from basic mobile phones, answering SMS questions about what they learned on the TV show, and winning voice calls and songs from their favorite cartoon characters.

We're looking for a full time (or potentially part-time) Monitoring and Evaluation Consultant to work with our team in Dar es Salaam to design and manage M&E activities for Ubongo Kids a new edutainment product.

Responsibilities:

Ubongo is looking for a qualified M&E consultant who will coordinate with the project management team and manage implementation of M&E development. The consultant can work full-time or part-time (dependent on experience) at our office in Dar es salaam, Tanzania and in the field around Tanzania.

Primary responsibilities;

- Lead design and development of two-year monitoring and evaluation plan to assess educational and social impact of Ubongo products. Develop project log frame matrix, including objective hierarchy, indicators and monitoring mechanisms.
- Develop the overall framework for M&E including participatory impact assessments, randomized control trials, process monitoring, operations monitoring and lessons-learned workshops.
- Guide the process for identifying the key performance questions and parameters for monitoring project performance and comparing it to targets. Design the format for such performance reports.
- Develop a plan for project-related capacity-building on M&E and for any computer-based support that may be required.
- Review existing approaches and information management systems and implement changes as needed.
